

SARTHAK SURESH TAMBDE

WEB DEVELOPER

+91 9653181524 | tambdesarthak@gmail.com | www.linkedin.com/in/sarthaktambde | <https://sarthaktambde.vercel.app/>

B.Tech graduate in Information Technology with strong expertise in full-stack and cross-platform development using React.js, Next.js, Flutter, Firebase, and Python. Skilled in building scalable, user-focused web and mobile applications, integrating AI and machine learning models, and deploying cloud-based solutions. Experienced in leading projects like an AI-powered eCommerce website, food delivery app, and placement management system. Passionate about solving real-world problems through technology, optimizing workflows, and contributing to innovative, high-impact development teams.

PROJECTS

1. React Ecommerce Website:

Develop an e-commerce website using React and Firebase is a popular choice for web developers due to their flexibility, ease of use, and scalability. React is a JavaScript library for building user interfaces, and Firebase is a Backend-as-a-Service (BaaS) platform that provides various services like authentication, real-time database, and hosting.

- **Tech Stack:** React+Vite, Firebase, Tailwind CSS, Redux Toolkit.

2. Food Delivery App:

A food delivery app made with Flutter x Firebase pre-built, functional and ready to go out of the box. This app has email authentication and backend already built in. The user can create an account, browse the menu, add to cart, and input card payment details. The order will then be placed and saved into Firebase for real-time live updates. The app will generate a receipt for the user as a summary of the order.

- **Tech Stack:** Flutter, Firebase.

3. Placement Management Website:

The College Placement System automates placement tasks, helping TPOs manage student data while students update profiles and resumes. It supports communication, shortlisting, and AI-based job matching to simplify recruitment.

- **Tech Stack:** React+Vite, Node.js, Express.js, MongoDB, Tailwind CSS.

EDUCATION

A.C. Patil College of Engineering, Kharghar | B.E. Information Technology | 2025 | 62.35% | First Class Dist
VPM Polytechnic, Thane | Diploma in Information Technology | 2022 | 78.69% | First Class Dist

SKILLS

- | | |
|----------------|--------------|
| • Html | • JavaScript |
| • Tailwind CSS | • Flutter |
| • React.js | • MongoDB |
| • GitHub | • Firebase |
